

Stress free

AIRBNB MANAGEMENT WITH AIRREADY

Have you thought about using Airbnb to lease your home or investment property but don't have the time to create an inviting listing?

Are you worried that advertising your home for vacation letting will be too stressful, difficult to manage, time heavy and near impossible to maintain?

If this is ringing a few alarm bells, you will be glad to learn there is a solution – local Airbnb management business Airready.

An organisation motivated by doing all the hard work for you, Airready has been in operation for two years on the Surf Coast, providing essential services in Airbnb property management.

Business duo Sally and Felicity have welcomed an expanding audience, generating financial return for clients and delivering a hands-on, boutique approach.

"Since launching, we've seen a large migration of clients from traditional holiday letting services. One of the

main reasons for this is the Airbnb market lends itself to an international audience," the business partners said.

From professional photography to capture the essence of your home to arranging cleaning services prior to the arrival of new guests, Airready is prepared to go the extra mile to ensure your home is well taken care of.

Off the back of a busy summer, Airready is excited to be taking on new clients.

"Now is the best time to join our growing portfolio as we are already seeing Christmas and New Year bookings coming in," Felicity said.

Airready works to create five-star reviews, repeat bookings and ongoing price optimisation using a research-based approach.

Motivated by happy clients, Airready welcomes property owners interesting in holiday letting to ring 0431 286 415 or 0437 556 068 for a chat about stress-free Airbnb management.

For more information, visit airready.com.au.

Airbnb management business Airready are taking on new clients after a busy summer maintaining Airbnb bookings along the Surf Coast.
